Analysis (Value/Volume growth)

- Analysis of Volume growth and Value growth across broad categories of decorative paints are shown, as we feel that overall volume growth numbers do not reveal much.
- Due to several rounds of price increases compared to the corresponding period of the previous year, the value growth in each category is higher than volume growth.
- Company witnessed a small dip in the volume of the Emulsions category; However, the Emulsion volume growth was **34.4%** in Q1FY 23 and **42.6%** in Q4FY 22.
- Very sharp increase in the volume growth of Enamel category, where the Company was traditionally weak.
